Pearlight 5050 Dc 12V Waterproof Flexible LED 6000k. Each front strip of white LED lights contains 21 individual LED chips in a 12-inch strip

Light Source: LED	Working Temperature: -20 - 45°C
Type: Flex LED Strips	Working Lifetime (Hour): 50000
LED type: SMD5050	Lamp Body Material: FPC
Input Voltage(V): 12	Emitting Color: Cool white
IP Grade: IP65	PCB color: White
Lamp Power: 60W	Model Number: PT-5050-CW
LED quantity: 300LED/16.4 ft	LED QTY: 60leds/m
Lamp Luminous Flux(lm): 22-24LM	Size: 10*5000*2mm
CRI (Ra>): 70	Warranty: 2 years
Color Temperature (CCT): 6000K	Certification: CE/ROHS

EverBright Super Brightness Amber 5M(16.4Ft) 3528SMD 300 LED Waterproof Flexible Light Strip. Surround strip of Amber /Yellow LED lights contains 42 individual LED chips in a 26.5-inch strip 12-volt DC

WATERPROOF: Amber led strip light waterproof, Waterproof Credit: IP65 (Non-Waterproof: IP20), Can be used both indoors and outdoors. Strip Light Length: 5M(16.4ft) =1-reel, LED Quantity:300LED/5M(60LEDS/M), View angle:120°.

Product Feature: Color: Amber/Yellow, Output Voltage: DC12V @ 6A, Working Power:72W/5M, Temperature: -20 to 50°C.

SMD 3528 CHIP.

* Dimensions of the chips: 3.5mm x 2.8mm

XCSOURCE DC 12V 9800mAh Rechargeable Li-ion Battery Pack (optional) *from the manufacture*

Specifications:

Name: Li-ion Battery	Battery type: Rechargeable Li-on battery
Mode: DC 1298A	Input voltage: 12.6V DC
Exterior color: Blue	Output voltage: 12.6-10.8V DC
Capacity:9800mAh	Output current:1-2.4A

Battery Charging Method:
Open the battery switch to the ""ON"" at the red light on the charger indicates when charging starts (if battery is full charge, the power green light will remain unchanged); charging time is generally more than 8 hours; until the plug's red light becomes green, the battery is fully charged.

Note:
1. Before using this product, please connect the equipment, and then power work.
2. This product is strictly prohibited rain water, the other building materials, super-wave, ultra-high temperature environment will have an impact on product work.
3. This product will produce micro-heat, is a normal phenomenon.
4. Note that the use of the process do not let the battery suffer a strong squeeze and collision.
5. The battery is best not to use more than a year, to avoid capacity decline.
6. Keep away from high temperature, stored in a cool dry place. To reduce the risk of fire or burns.
7. Do not attempt to open, disassemble or service the battery pack.
8. Do not crush, puncture, short extremal contacts of dispose of in fire or water above 60℃（140℉）
9. Please turn on the switch when charge for this item. And if you want to measure the voltage, suggest using pointer multimeter.
Because digital measure table easily jump table. If the item is not 10.8-12.6V, please turn on the switch again.

Package Included:
1x Li-ion Battery
1x Charger (US PLUG)

9800mAh

Power cord to lights

FULARR Professional BNC Connector Kit, BNC Male Plug & Female Socket
Screw Terminal Block Adapter and 24 AWG wire.

Plugs are triple secured with screw tighteners, wire ties and then
Wrapped with a rubber shrink jacket.

Extra security with a glued clip and a zip tie.

Adhesives

➢ All adhesives used are 3M™ Double Coated Tape and Hot Melt Glue Sticks.
➢ Neither are or will affect the integrity of the PYRAMEX HP14131 SL Series Cap Style Polyethylene Hard
Hat.
