OH&S Section

Primarily for Construction

Forms &Notices

In the forms file, the Pdf version will have a few extra documents. These are structured Pdf documents from WorkSafe BC and do not come in a word version. Any additional forms that are needed can be designed and developed from FreeBird Safety Services.

Thank You and Have a Safe Day

On-Line Safety Training

Remember
Before stating any task, ask the most important question
"WHAT CAN GO WRONG"
The answer you get are the Hazards you'll Face and the Risks you'll Take
Is it worth it?

Section Structure

Both Versions on Flash Drive

On the electronic version of this section, there are 2 different formats, 'Word' and 'Pdf. This listing is based on the Pdf version as it has more documentation due to downloads and instructional right from **WorkSafe BC.**

In addition, there is an Excel program Stats Tracker for Monthly, Quarterly, and Yearly tracking of the numbers in regards to the OH&S Program.

If by some chance, some consulting is required as to the nature or on how to fill out any documentation occurs, please do not hesitate to call.
